

AutoClip™ EDBNG-90

AutoClip™ EDBNG-90

The AutoClip™ EDBNG-90 is a high-speed, consumer product clip packaging machine sharing the proven pitched technology from the MM1600 machine. The system can run a variety of plastic and glass bottles and jars in 2 & 3 pack formats. An economical paperboard packaging solution providing an environmentally responsible alternative to plastic clips.

Machine Highlights

Functional Design, Easy Access Construction

- Heavy-duty welded tubular painted steel frame with corrosion resistance coatings and materials
- Full height, clear guard doors providing easy walk-in access to the machine functions for adjustment and maintenance.

Machine Features (Standard)

- Pitched product side transport chain
- Rotary clip feeder
- Paperfeed transfer into a pitched overhead clipping system
- Unique overhead clipping system
- Servo drive motors
- 10" color touchscreen
- Automatic prime and clean-out features

Machine Features (Optional)

- 5' extended powered magazine

Predictive Maintenance Program (PMP)

- Let GPI manage your machine maintenance with our market-proven PMP program

Specifications

Packaging Configuration/Speed

Format / Line	
1x2	90 ppm
1x3	55 ppm

Primary Containers

Bottles and Jars
Height- 5" to 8"
Diameter- 3" to 4"

Frame Dimensions

Base machine: 4' width x 15' long x 7' high

Standard Machine Elevation

32" +/-2" (810m +/- 50mm)

Machine Weight

Approx. 10,000 lb (4500 kg)

Electrical

- Control Voltage: 24 VDC
- Supply Voltage: 460 VAC, Three Phase 60 HZ

Air Requirements

- 80 psi, (5.5 bar-16 m3/H) clean/dry air supply required (equivalent to class 3 or better).
- 9.5 SCFM

Lubrication

Lube-free—Sealed bearings

Machine Footprint
